Summary of Material Modifications

June, 2021

PARTICIPANT NOTICE

This Participant notice will advise you of certain material modifications (plan changes) that will be made to the Southwest Carpenters Health and Welfare Trust (the Plan). This information is **very important** for you and your eligible dependents. Please take the time to read it carefully.

Aviso a los participantes que hablan español: Si tiene alguna pregunta referente a este aviso o requiere alguna otra información referente a su cobertura de salud, por favor de comunicarse con la oficina administrativa al (213) 386-8590 o (800) 293-1370, donde habrá varios representantes bilingües que le ayudarán.

New ComPsych Carpenters Assistance Program (CCAP) Effective January 1, 2021

The Board of Trustees is pleased to announce a new benefit effective for the 2021 plan year available to all eligible employees and their family members, regardless of whether you're enrolled in group health benefits through the Fund, the ComPsych Carpenters Assistance Program. ComPsych provides professional confidential counseling services for up to 5 visits per issue at no cost to you. It also provides legal assistance and financial counseling with licensed professionals at no cost to you. The ComPsych website provides information and resources on many subjects including health care, nutrition, caring for the elderly, tips for getting organized, and much more.

You can access these services by reaching out to ComPsych by phone at (833) 792-2271 (833-SWCCAP1) or online at www.guidanceresources.com using the Web ID: SWCCAP.

The CCAP is intended to help individuals manage challenges related to stress, marriage, family, work, substance abuse, financial, legal problems, and elder and child care. The CCAP services are available via in-person visits, telephonic visits, video visits and chat sessions 24/7/365. ComPsych's confidential counselors will also help coordinate care through the medical plan as appropriate. Services provided by the CCAP are available in addition to the mental/behavioral health benefits provided under the Anthem PPO and Kaiser Medical Plans.

New Enrollment Procedures Effective October 1, 2021

The Fund is implementing a change in the enrollment procedures for the Fund, which are expected to afford participants greater flexibility with making benefit changes, permitting them to occur any time of the year as long as the enrollment procedures are followed.

Effective with enrollments or enrollment changes effective on or after October 1, 2021, the Fund will no longer have an Open Enrollment period. Instead, participants will be allowed to change their elections once during any rolling 12-month period.

In order to first enroll in Fund coverage, each Eligible Participant must complete an enrollment form. You must remain in the coverage options, including enrolled dependents, you have elected for at least 12 months (unless you experience a special enrollment event). You may then change enrolled dependents by submitting a new enrollment form indicating the change to the Administrative Office. The change will go into effect the first day of the third calendar month following the date the form is received. (Example: If the Fund Office receives a dental enrollment plan change from the UHC PPO to the UHC DHMO dental plan on November 12, 2021, the plan change would be effective February 1, 2022.)

You have the option to decline Fund coverage for yourself and/or any eligible dependents. After declining coverage, if at a later date you want the Fund's coverage that you declined (opted out of) for yourself or a dependent, you may be able to take advantage of the HIPAA Special Enrollment provisions (such as if you lose eligibility for that other coverage), or you can make an election to enroll yourself or your dependent in the Fund's benefits if it has been at least 12 months since the initial decision to decline benefits.

If you established eligibility for benefits under a qualifying drywall agreement, are enrolled in the Bronze Plan, and now work (permanently) under a Collective Bargaining Agreement that does not include a Bronze Plan provision, your work hours will be treated like a reciprocal agreement; you will be credited with the actual number of work hours worked, and you will remain in the Bronze Plan until the end of the Eligibility Quarter, as long as you meet the eligibility requirements for Active Carpenters. You will have the opportunity to select the Plan Option that will be available to you beginning the first Eligibility Quarter after the permanent assignment or move. The Bronze Plan option will no longer be available after you switch out of the plan, as it is not supported by the Collective Bargaining Agreement you are (permanently) working under.

Clarification Regarding Disability Hours Credits

Effective for disabilities beginning on or after January 1, 2019, if an Active Carpenter becomes Disabled in a Work Quarter, the Active Carpenter will be credited in that Work Quarter in which disability began, and the quarter immediately following with disability hours at the rate of eight (8) hours each day the Active Carpenter is Disabled (excluding Saturdays, Sundays and holidays). If zero hours are needed to maintain eligibility in the quarter in which the disability began, disability hours will be credited in the two subsequent quarters.

Generally, in order for Disability hours to be credited, the Active Carpenter must not be receiving a Pension Benefit from the Southwest Carpenters Pension Trust. However if, after being credited with Disability Hours, the Active Carpenter receives a Social Security Disability award with a retroactive effective date that falls within the Disability Hours Credit period, this will not alone disqualify the Active Carpenter from the Disability Hours Credit.

Please refer to your Plan Document/Summary Plan Description for the full description of the Fund's Credit for Disability Hours.

New SaveOnSP Specialty Pharmacy Copay Assistance Program Effective January 1, 2021

Effective with the 2021 Plan Year, the Plan provides a Specialty Pharmacy Copay Assistance Program through SaveOnSP for certain specialty drugs. This program is intended to help both you and the Fund save money on certain specialty medications by obtaining copay assistance from drug manufacturers when it is available. If you are taking a qualifying drug, SaveOnSP will contact you to participate in the program. If enrolled in the specialty pharmacy copay assistance program, these specialty drugs will be at no cost to you after the manufacturer's coupon is applied, as the manufacturer's copay assistance is expected to completely cover the participant's cost share of the drug. If you do not enroll in the program, you must pay the full copay. The copays are set to the maximum of the current plan design or any available manufacturer-funded copay assistance. More information is available at <http://www.saveonsp.com/southwestcarpenters>.

You are not required to participate in the copay assistance program, however, you must participate in order to receive benefits under the plan for your qualifying specialty medications. Those who do not participate in the program will be responsible for a higher copay for certain specialty drugs, higher than the Plan's regular copayment. These copayments are subject to change, and also will not apply toward your out-of-pocket limit. **This could result in a much higher cost share for those who choose not to participate in the program.**

For questions and assistance with the Specialty Pharmacy Copay Assistance Program, contact SaveOnSP at 1-800-683-1074. For a list of specialty drugs eligible for the program, visit: www.saveonsp.com/southwestcarpenters.

Additional Bronze Medical Plan Changes Effective January 1, 2021

The Trustees are pleased to announce changes to Anthem PPO benefits under the Southwest Carpenters Bronze Medical Plan. **A summary of changes effective for services received on or after January 1, 2021 include:**

- If provided through the 911 emergency response system, services from an Emergency Medical Technician (EMT) are covered if you reasonably believe that a medical emergency existed even if you are not transported to a hospital. Municipal emergency services, such as fire rescue and paramedics, that are billed separately from emergency medical transportation are covered. These are covered at the Plan's regular benefits for ambulance services for a medical emergency.
- 90-day supplies of maintenance drugs can be obtained from any Smart90 retail pharmacy. Your physician must write a new prescription for 90-days vs. 30-days. This will reduce the number of visits to the local pharmacy.
- Physical therapy and occupational therapy are each limited to 20 sessions per calendar year, however, if additional sessions are needed beyond this limit, preauthorization must be obtained. Coverage will be provided for additional sessions if they are determined to be medically necessary.
- The Plan will pay for tests/screenings for sexually transmitted infections (STIs) when ordered by a Physician or Health Care practitioner. These will be covered at no charge, no deductible when received from an in-network provider, or at 50% coinsurance (cost share) after deductible is met when care is received from an out-of-network provider.

Attached to this Participant Notice you will find a Schedule of Medical Benefits updated to reflect these changes to your Bronze Medical Plan Anthem PPO benefits for the 2021 Plan year.

Chapter 5: SCHEDULE OF MEDICAL BENEFITS FOR THE BRONZE MEDICAL PLAN

This chart explains the benefits payable by the Plan. See also the Exclusions and Glossary Chapters of this document for important information. All benefits are subject to the Deductible except where noted.
***IMPORTANT: Out-of-Network providers are paid according to the Allowed Charge as defined in the Glossary Chapter, and could result in Balance Billing to you.**

BENEFIT DESCRIPTION	EXPLANATIONS AND LIMITATIONS OF BENEFITS	PPO In-Network	Out-of- Network
<p><u>Deductible</u></p> <ul style="list-style-type: none"> The annual Deductible is the amount of money you must pay each Calendar Year before the Plan begins to pay benefits. Deductibles are applied to the Eligible Medical Expenses in the order in which claims are processed by the Plan. Only Eligible Medical Expenses can be used to satisfy the Plan's Deductibles. The Deductible applies to all covered services except where otherwise noted in this Schedule of Medical Benefits. 	<ul style="list-style-type: none"> There is an annual Deductible when using network providers and a separate annual Deductible when using non-network providers. Note that the Network and Out-of-Network Deductibles are not interchangeable, meaning that you may not use a portion of a network Deductible to meet an out-of-network Deductible and vice versa. The family Deductible can be met by any combination of amounts from any family member. See also the section on Deductibles in Chapter 4 for information on the Deductible carryover provision and common accident provision. The Deductible does not apply to certain services noted in this Schedule, such as the Deductible does not apply to Preventive Care received from an in-network provider, ambulance services, or outpatient Prescription Drugs. 	<p>\$3,000 per person</p> <p>\$6,000 per family</p>	<p>\$10,000 per person</p> <p>\$20,000 per family</p>
<p><u>Out-of-Pocket Limit (Annual)</u></p> <p>The Out-of-Pocket Limit is the most you pay during a one-year period (the Calendar Year) before your medical plan starts to pay 100% for covered Essential Health Benefits received from Network providers.</p> <ul style="list-style-type: none"> Covered expenses are applied to the Out-of-Pocket Limit in the order in which eligible claims are processed by the Plan. There is no Out-of-Pocket Limit on the use of Out-of-Network providers, except that Emergency Services performed in an Out-of-Network Emergency Room will accumulate to meet the Network Out-of-Pocket Limit. The family Out-of-Pocket Limit accumulates cost-sharing for any covered family member; however, no one individual in the family will be required to accumulate more than this Plan's "per person in a family" annual Out-of-Pocket Limit. Covered outpatient Prescription Drug expenses accumulate to a separate annual outpatient Drug Out-of-Pocket limit. 	<ul style="list-style-type: none"> The Bronze Plan Out-of-Pocket Limit does not include or accumulate: <ol style="list-style-type: none"> All services and supplies provided by Non-PPO (out-of-network) providers, except in cases involving Emergency Services performed in an Out-of-Network Emergency Room which do accumulate to the In-network Out-of-Pocket Limit Expenses that are not considered to be Essential Health Benefits, such as Spinal Manipulation/Chiropractic treatment Premiums and/or self-payment contributions for coverage Amounts you pay for non-covered services Charges above what the Plan allows (above the Allowable Charge) Charges in excess of the Bronze Plan's maximum benefits Any cost-sharing under the Outpatient Prescription Drug Benefit does not apply to the Bronze Plan Out-of-Pocket Limit but does apply to meet the separate annual outpatient Prescription Drug Out-of-Pocket Limit. The Bronze Plan Out-of-Pocket Limit does not include/accumulate outpatient Prescription Drug benefits while the Outpatient Prescription Drug Out-of-Pocket Limit does not include/accumulate other Medical plan benefits. The Outpatient Prescription Drug Out-of-Pocket Limit does not accumulate Drug costs related to amounts you pay for Prescription Drugs obtained at walk-in retail pharmacies after the second fill of a maintenance Drug. 	<p>Medical Plan: \$5,600 per person</p> <p>\$11,200 per family</p> <p>Outpatient Prescription Drugs: \$1,000 per person</p> <p>\$2,000 per family</p>	<p>No Out-of-Pocket Limit for use of out-of-network providers.</p> <p>Exception: Emergency Services performed in an Emergency room (ER) will accumulate to the In-network Out-of-Pocket Limit.</p>

Preauthorization is recommended for surgical procedures where the surgeon's fee is expected to exceed \$1,500. See also the definition of Physician, Health Care Practitioner and Surgery in the Glossary Chapter. The Plan Administrator or its Delegate will determine if multiple surgical or other medical procedures will be covered as separate procedures or as a single procedure based on the factors in the definition of "Surgery" in the Glossary Chapter. Assistant Surgeon fees will be reimbursed only for Medically Necessary services to a maximum of 20% of the eligible expenses allowed for the primary surgeon; however, the maximum is 10% of the Allowable Charge for the primary surgeon for the services of a state licensed Registered Nurse first assistant or state licensed Physician assistant. Under this Plan, there is no requirement to select a primary care Physician (PCP) or to obtain a referral or prior authorization before visiting an OB/GYN provider. Provider Hospital Visits: Not more than one visit to or by the same Physician is covered per day unless the patient is confined as a registered bed patient in a Hospital or Extended Care Facility. For purposes of this limitation, multiple office visits are considered to have occurred in a single day if the Physician bills more than one office visit charge for the same date of service and regardless of whether or not the patient had a return trip to the Physician's office. Newborn circumcision is payable. An office visit for a second or third opinion is payable. Generally there is no coverage for eye refraction, eyeglasses, contact lenses, or the fitting of eyeglasses or contact lenses; however see the Corrective Appliance row in this Schedule for more details. Surgical correction of refractive errors in vision is not covered, including but not limited to LASIK or similar procedures, except surgical correction is payable when the patient's vision cannot be corrected to 20/40 or better by eyeglasses or contact lenses (coverage is payable for one Surgery for each eye during a person's lifetime, up to a maximum Plan payment of \$1,000 for each Surgery). No coverage for acupuncture. Routine Foot Care is not covered; however, foot care is payable when Medically Necessary for individuals with diabetes or a neurological or vascular insufficiency affecting the feet. 	<p>Online visit with a health care professional via video live chat: You pay \$5.00/visit, Deductible does not apply.</p> <p>All other services: After Deductible met, Plan pays 80%</p> <p>For second surgical opinion: deductible waived and Plan pays 100% of Allowable charge, up to \$150. <p><u>Dialysis</u></p> <ul style="list-style-type: none"> Dialysis for the treatment of acute kidney failure, end-stage kidney disease and chronic kidney disease. Hemodialysis or peritoneal dialysis and supplies administered under the direction of a Physician in a Hospital, Health Care Facility, Physician's office or at home. If you are eligible for Medicare but do not reenroll in both Medicare Part A and Part B after the 30-month coordination period is completed, this Plan will pay benefits as if you have enrolled. After the 30-month coordination period is completed, your claims will be reduced as secondary under this Plan regardless of your enrollment status under Medicare. <u>As a result, in order to receive the maximum amount of coverage to which you may be entitled under Medicare, you should consider enrolling in and paying any premiums required for Medicare coverage, including Part B, no later than the end of the 30-month coordination period.</u> 	<ul style="list-style-type: none"> Benefit payments may vary depending on the location in which the hemodialysis or peritoneal dialysis is performed or received by the patient. When you have reached the end stage of kidney failure (renal impairment) that causes your Physician to recommend a kidney transplant or regular course of dialysis, you may be eligible for Medicare. It is important that individuals with end stage renal disease (ESRD) promptly apply for Medicare coverage, regardless of age. If you qualify for Medicare Part A (coverage for Hospitals), you can also get Medicare Part B (coverage for outpatient services, ambulance, DME). Enrolling in Part B is your choice, but you'll need both Medicare Part A and Part B to get the full benefits available under Medicare to cover certain dialysis and kidney transplant services. See also the Coordination of Benefits Chapter 9 that discusses what this Plan pays when you are also Medicare eligible. Medicare and ESRD: Once you are eligible for Medicare, you should apply for enrollment in Medicare. If the application for enrollment is accepted, Medicare coverage may begin. Medicare coverage begins at different times for different people depending on the circumstances. Medicare coverage usually starts the first day of the 3rd month after the month in which a course of regular dialysis begins. All, or a portion of, the 3-month waiting period may be waived if you participate in a self-dialysis training program, or if you have a kidney transplant within the 3-month waiting period. <p>When you are on dialysis and covered by both Medicare and this group health plan, for the first 30 months (referred to a 30-month coordination period), your group health plan is the primary payer of your dialysis and other covered medical services. It is important to note that the 30-month coordination period always begins on the date you are first eligible to enroll in Medicare due to ESRD. If for example, you fail to submit a timely application for Medicare or choose not to apply for Medicare, the 30-month coordination period will be calculated with a start date based on the month in which you could have been enrolled, had you made an application for Medicare.</p> <p>Medicare becomes the primary payer of benefits after the 30-month coordination period ends, as long as you retain Medicare eligibility based on ESRD. A Medicare beneficiary may have more than one 30-month coordination period. Medicare entitlement (meaning eligibility and coverage under Medicare) because of ESRD, will end if you have not received dialysis for 12 months, or if 36 months have passed since you had a successful kidney transplant.</p>	<p>Payment may vary according to the location in which the service is provided.</p>	<p>Payment may vary according to the location in which the service is provided.</p>

<p><u>Drugs (Outpatient Medicines)</u></p> <ul style="list-style-type: none"> Coverage is provided for those pharmaceuticals (drugs and medicines) approved by the US Food and Drug Administration (FDA) as requiring a prescription and are FDA approved for the condition, dose, route, duration and frequency, if prescribed by a Physician or other Health Care Practitioner authorized by law to prescribe them. Contact the Prescription Benefit Manager (PBM) (whose phone number is listed on the Quick Reference Chart in the front of this document) for the following: <ul style="list-style-type: none"> The Drugs on the National Preferred Formulary. Information on Drugs requiring preauthorization (pre-approval) by the clinical staff of the Prescription Benefit Manager (PBM), such as growth hormones, interferon, controlled substance for pain treatment, Retin-A over age 25, hepatitis C Drugs, Botox, certain brand name Drugs and testosterone replacement. Information on which Drugs have a limit to the quantity payable by this Plan, such as sleeping pills. Information on which Drugs are part of the step therapy program where you first try a proven, cost-effective medication before moving to a more costly Drug option. Specialty Drugs are available on an outpatient basis when ordered through and managed by the Prescription Benefit Manager (PBM). Specialty Drugs are generally considered high-cost injectable, infused, oral or inhaled products that require close supervision and monitoring and are used by individuals with unique or chronic conditions such as multiple sclerosis, rheumatoid arthritis, Crohn's disease, psoriasis, cancer or hepatitis. These Drugs need prior authorization, often require special handling, are date sensitive and are generally available only in a 30-day quantity. 	<p>The Prescription Drug Program: Benefits for Prescription Drugs are provided through the Plan's Prescription Benefit Manager (PBM) whose name is listed on the Quick Reference Chart in the front of this document.</p> <ul style="list-style-type: none"> If the cost of the Drug is less than the Copay, you pay just the Drug cost. Retail Drugs: To obtain up to a 30-day supply of medicine for the Copay noted to the right (or 90-day supply if a Smart90 retail pharmacy is used), present your ID card to any Network retail pharmacy. Contact the Prescription Benefit Manager (PBM) (whose name is listed on the Quick Reference Chart) for the location of Network and Smart90 retail pharmacies. Note that after a maintenance Drug has been filled two times at a retail pharmacy, you are REQUIRED TO OBTAIN any future refill of that maintenance Drug through the Mail Order Pharmacy or a Smart90 Retail Pharmacy or else pay the full cost of the Drug. Mail Order (Home Delivery) Drug Service: The mail order service is the easiest and least expensive way to obtain many maintenance use Drugs, plus the medications are mailed directly to your home. You may use the mail order service (see the Quick Reference Chart) to receive up to a 90-day supply of non-Emergency, extended-use "maintenance" Prescription Drugs, such as for high blood pressure, high cholesterol, or diabetes. Note that not all medicines are available via mail order. Check with the Prescription Benefit Manager (PBM) for further information. To use the mail order service, have your doctor write the prescription for a 90-day supply, with the appropriate refills. Then, mail your prescription, Copay and the mail order form to the Mail Order Services of the Prescription Benefit Manager (PBM) whose address is listed on the Quick Reference Chart. Mail order forms may be obtained from the Prescription Benefit Manager (PBM). Allow up to 14 days to receive your order. Direct Member Reimbursement for use of an Out-of-Network Retail Pharmacy: If you fill a prescription at an Out-of-Network pharmacy location, you will need to pay for the Drug at the time of purchase and later (within 1 year), send your Drug receipt to the Prescription Benefit Manager (PBM) using the Direct Member Reimbursement (DMR) process. DMR forms may be obtained from the Prescription Benefit Manager (PBM). Be sure to send a copy of the pharmacy Drug receipt and sign the DMR claim form. For eligible prescriptions, the Plan reimburses 80% of what it would have paid had you used a network pharmacy and you pay a \$60 Copay plus 20% Coinsurance. Note: Specialty Drugs are not payable out-of-network, plus, foreign Drug claims and allergy Drug claims are not covered through direct member reimbursement. The Plan provides a mandatory generic program meaning that if a brand name Drug is dispensed in place of a generic Drug, regardless if you or your doctor request it, you will pay the brand Copay plus the difference in cost between the generic and brand name Drug. Certain specialty pharmacy drugs are considered non-essential health benefits, as defined by the ACA, under the Plan and the cost of such drugs, or a manufacturer coupon used to pay for these drugs, will not be applied toward satisfying your out-of-pocket maximum. The Plan provides a Specialty Pharmacy Copay Assistance Program for these specialty drugs. If enrolled in the specialty pharmacy copay assistance program, these specialty drugs will be at no cost you after the manufacturer's coupon is applied. If you do not enroll in the program, you pay the full copay, and the copays are set to the maximum of the current plan design or any available manufacturer-funded copay assistance. These services are covered without cost sharing for a female when obtained from Network providers. Hospital Length of Stay for Childbirth: Under federal law, group health plans, like this Plan, generally may not restrict benefits for any Hospital length of stay in connection with childbirth for the mother or the newborn child to less than 48 hours following a vaginal delivery, or less than 96 hours following a cesarean section. However, the Plan may pay for a shorter stay if the attending Physician (e.g., Physician, or Health Care Practitioner), after consultation with the mother, discharges the mother or newborn earlier. Also, under federal law, plans may not set the level of benefits or Out-of-Pocket costs so that any later portion of the 48-hour (or 96-hour) stay is treated in a manner less favorable to the mother or newborn than any earlier portion of the stay. If you deliver in the Hospital, the 48-hour period (or 96-hour period) starts at the time of delivery. In addition, the Plan may not, under federal law, require that a Physician or other Health Care Practitioner obtain authorization for prescribing a length of stay of up to 48 hours (or 96 hours). However, to use certain providers or facilities, or to reduce your Out-of-Pocket costs, you may be required to obtain preauthorization. For information on preauthorization for a length of stay longer than 48 hours for vaginal delivery or 96 hours for C-section delivery, contact the Preauthorization Program to preauthorize the extended Hospital stay. Refer to Chapter 4 for information on preauthorization. You do not need prior authorization from the Plan or from any other person (including a primary care provider) in order to obtain care from a health care professional in the network who specializes in obstetrics or gynecology. The health care professional, however, may be required to comply with certain procedures, including obtaining prior authorization for certain services, following a pre-approved treatment plan, or procedures for making referrals. Elective induced (voluntary) abortion is covered only for the covered employee or covered Spouse. 	Prenatal and postnatal office visits and ACA-mandated Preventive Services: No charge, Deductible does not apply. Lactation counseling and breast-feeding equipment and supplies: No charge, Deductible does not apply. For Delivery fees: refer to Physician and Hospital rows of this schedule. <p>Wellness (Preventive) Program Well Child Examinations and Immunizations</p> <ul style="list-style-type: none"> Outpatient newborn and well child visits and routine childhood immunizations that are FDA approved and in accordance with the Centers for Disease Control & Prevention (CDC) recommendations for children in the US, such as DPT, Polio, MMR, Hib, hepatitis, chickenpox, tetanus, influenza (flu) vaccine, HPV (e.g. Gardasil, Cervarix), etc. Immunizations/Vaccinations Available from the Retail Pharmacy: The Plan covers immunizations obtained from a network retail pharmacy or during a network Physician office visit. The wellness/Preventive Services payable by this Plan are designed to comply with Affordable Care Act (ACA) regulations as outlined to the right. Preventive services are payable without regard to gender assigned at birth, or current gender status. For children age 6 years and older with obesity, Plan covers Physician prescribed intensive behavioral counseling interventions to promote improvement in weight status at the visit frequency recommended by the child's Network pediatrician. When performed in primary practices, topical fluoride varnish to the primary teeth of children is payable through age 5 years. See page 62 for information on payment of ACA-mandated Drugs. If there is no network provider who can provide the Affordable Care Act (ACA) required wellness service, then Plan will cover the service when performed by an out-of-network provider without cost-sharing. 	<p>The wellness/Preventive Services payable by this Plan are designed to comply with Affordable Care Act (ACA) regulations and the current recommendations of the United States Preventive Services Task Force (USPSTF), the Health Resources and Services Administration (HRSA), Bright Futures and the Centers for Disease Control & Prevention (CDC). These websites (periodically updated) list the types of payable Preventive Services, including immunizations: https://www.healthcare.gov/what-are-my-preventive-care-benefits/ with more details at http://www.cdc.gov/vaccines/schedules/hcp/index.html, http://www.hrsa.gov/womensguidelines/ and https://www.uspreventiveservicestaskforce.org/Page/Name/uspstf-a-and-b-recommendations-by-date/ (A and B rated recommendations).</p> <ul style="list-style-type: none"> In addition to the wellness services listed on the websites above, the Plan will pay for these wellness services: well child office visits, well woman office visits, female contraceptives, and certain over-the-counter Drugs. When both Preventive Services and diagnostic or therapeutic services occur at the same visit, you pay the cost share (e.g. Deductible, Copay, Coinsurance) for the diagnostic or therapeutic services but not for the Preventive Services. When a preventive visit turns into a diagnostic or therapeutic service in the same visit, then cost-sharing (e.g. Deductible, Copay, Coinsurance) will apply to the diagnostic or therapeutic services provided. Preventive services are considered for payment when billed under the appropriate Preventive Service codes (benefit adjudication depends on accurate claim coding by the providers). If the billing for a wellness service is submitted to the claims administrator with a diagnosis code other than "wellness," claims will be processed under the Plan's usual cost-sharing including Deductible/Copay/Coinsurance. Services not covered under the wellness/preventive benefit may be covered under another portion of the medical plan. Additional diagnostic services that are Medically Necessary because of the patient's medical diagnosis are covered, subject to the Plan's Deductibles, Coinsurance or Copayments, and all other Plan provisions. If an Affordable Care Act (ACA) Preventive Service recommendation or guideline does not specify the frequency, method, treatment, or setting for the provision of that service, the Plan will use reasonable medical management techniques (such as age, frequency, location, method) to determine coverage parameters. The frequency for Affordable Care Act (ACA) Preventive Service recommendation is specified in these websites: https://www.healthcare.gov/what-are-my-preventive-care-benefits/, http://www.cdc.gov/vaccines/schedules/hcp/index.html, http://www.hrsa.gov/womensguidelines/, and http://www.uspreventiveservicestaskforce.org/BrowseRec/Index. The frequency of preventive visits for children is payable in accordance with the "Recommendations for Preventive Pediatric Health Care" from Bright Futures/American Academy of Pediatrics, updated periodically, (website for the schedule is: https://www.aap.org/en-us/Documents/periodicity_schedule.pdf). Note that for females, in accordance with the Affordable Care Act (ACA), the Plan will pay both a preventive office visit and a well woman office visit in a Calendar Year. Where the information in this document conflicts with newly released Affordable Care Act regulations affecting Preventive Care coverage, this Plan will comply with the new requirements on the date required. No coverage for immunizations/vaccines specifically required for travel or work (which are not otherwise CDC-recommended in the US). 	<p>No charge, Deductible does not apply.</p>	<p>After Deductible met, Plan pays 50%.</p>

Chapter 5: SCHEDULE OF MEDICAL BENEFITS FOR THE BRONZE MEDICAL PLAN

This chart explains the benefits payable by the Plan. See also the Exclusions and Glossary Chapters of this document for important information. All benefits are subject to the Deductible except where noted.
***IMPORTANT: Out-of-Network providers are paid according to the Allowed Charge as defined in the Glossary Chapter, and could result in Balance Billing to you.**

BENEFIT DESCRIPTION	EXPLANATIONS AND LIMITATIONS OF BENEFITS	PPO In-Network	Out-of-Network
<p>Wellness (Preventive) Program: Adult Health Maintenance Examinations (Age 18 & up)</p> <ul style="list-style-type: none"> The wellness/Preventive Services payable by this Plan are designed to comply with Affordable Care Act (ACA) regulations as outlined to the right. Certain prescription and non-Prescription Drugs, required to be covered in compliance with Affordable Care Act (ACA), are available through the Outpatient Prescription Drug program. Health care billed as wellness is payable for the following services: Annual routine preventive health exam. Women are permitted to receive an annual routine gynecology (GYN) health exam in addition to the annual routine preventive health exam. Adult immunizations that are FDA approved and in accordance with the Centers for Disease Control & Prevention (CDC) recommendations for adults in the US, such as annual flu shot, HPV vaccine (e.g. Gardasil, Cervarix), shingles vaccine, etc. Colon cancer screening is payable for adults age 50 and older, including fecal occult blood test annually, stool DNA testing like Cologuard annually, AND screening colonoscopy (including anesthesia services) every 10 years, or any of these tests once every five (5) years: virtual screening colonoscopy, double contract barium enema, or flexible sigmoidoscopy. No charge for a specialist pre-procedure consultation, bowel prep medication used prior to a screening colonoscopy, anesthesia services, or the lab charges for analysis of polyps removed during a screening colonoscopy. Screening Mammogram every other year for females age 50-74. As a preventive counseling benefit in compliance with Affordable Care Act (ACA), the Plan covers the following services for adults who are overweight or obese and have additional cardiovascular disease (CVD) risk factors: intensive behavioral counseling interventions to promote a healthful diet and physical activity for CVD prevention. See page 62 for information on ACA-mandated Drugs. 	<p>The wellness/Preventive Services payable by this Plan are designed to comply with Affordable Care Act (ACA) regulations and the current A and B recommendations of the United States Preventive Services Task Force (USPSTF), the Health Resources and Services Administration (HRSA), Bright Futures, & the Centers for Disease Control & Prevention (CDC). These websites (periodically updated) list the types of payable Preventive Services (such as immunizations, mammogram, pap smear, screening colonoscopy with anesthesia and colon polyp removal): https://www.healthcare.gov/what-are-my-preventive-care-benefits with more details at: https://www.uspreventiveservicestaskforce.org/Page/Name/uspstf-a-and-b-recommendations-by-date, http://www.cdc.gov/vaccines/schedules/hcp/index.html, and http://www.hrsa.gov/womensguidelines/.</p> <ul style="list-style-type: none"> In accordance with the Affordable Care Act (ACA), certain additional Preventive Care expenses are payable for all covered females as listed on the government websites at http://www.hrsa.gov/womensguidelines/ or https://www.healthcare.gov/what-are-my-preventive-care-benefits including but not limited to well woman office visits, screening for gestational diabetes, Genetic Counseling for females at risk for breast cancer, BRCA breast cancer gene test, HPV testing at least every 3 years starting at age 30, counseling on sexually transmitted infections, annual HIV screening and counseling, breastfeeding equipment and supplies needed to operate equipment, lactation support. See also the Durable Medical Equipment and Maternity Services rows in this Schedule. If a preventive item or service is billed separately from an office visit, then the Plan will impose cost-sharing with respect to the office visit. If the preventive item or service is not billed separately from the office visit, and the primary purpose of the office visit is the delivery of a Preventive Service, then the Plan will pay 100% for the office visit. If the Preventive Service is not billed separately from the office visit, and the primary purpose of the office visit is not the delivery of a Preventive Service, then the Plan will impose cost-sharing for the office visit. For example, if a person has a cholesterol screening test during an office visit, and the doctor bills for the office visit and separately for the cholesterol screening lab test, the Plan will charge cost-sharing (e.g. Deductible, Copay, Coinsurance) for the office visit but not for the cholesterol screening lab test. Preventive services are considered for payment when billed under the appropriate Preventive Service codes (benefit adjudication depends on accurate provider claim coding). If the billing for a Preventive Service is submitted to the claims administrator with a diagnosis code other than "wellness," claims may be processed under the Plan's usual non-preventive cost-sharing. Services not covered under the preventive benefit may be covered under another portion of the medical plan. Additional diagnostic services that are Medically Necessary because of the patient's medical diagnosis may be covered subject to the Plan's Deductibles, Coinsurance or Copayments, and all other Plan provisions. If an Affordable Care Act (ACA) Preventive Service recommendation or guideline does not specify the frequency, method, treatment, or setting for the provision of that service, the Plan will use reasonable medical management techniques (such as age, frequency, location, method) to determine coverage parameters. If there is no Network provider who can provide the Affordable Care Act (ACA) required wellness service, then the Plan will cover the service when performed by an out-of-network provider without cost-sharing. Where the information in this document conflicts with newly released Affordable Care Act regulations affecting Preventive Care coverage, this Plan will comply with the new requirements on the date required. Preventive services are payable without regard to gender assigned at birth, or current gender status. No coverage for immunizations/vaccines specifically required for travel or work (which are not otherwise CDC-recommended in the US). 	<p>No charge, Deductible does not apply.</p>	<p>After Deductible met, Plan pays 50%.</p>
